Hold Your Baby Skin-to-Skin

- Baby should be placed upright between your breasts with head turned and flat against your chest. Mom and baby are to be chest to chest with both shoulders of baby on Mom's chest.
- Baby's bottom should always be inside pouch with elastic under his bottom.
- Top section of the Cami should remain behind baby's head for support.

Adjustable Bra Strap

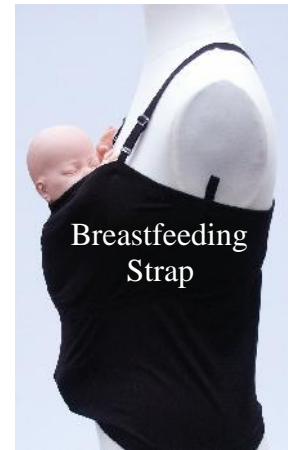

Breastfeeding Strap is on the inside. It will help secure your baby when breastfeeding.

Top Piece of Cami

Cami Pouch

Bottom Elastic

Breastfeeding Strap

Breastfeeding Skin to Skin

- When breastfeeding your baby, make sure his head is in a sniffing position and he is on the upper side of your breast
- Baby's face should never be pressed against breast tissue or turned in against your body, or into the fabric of the Swaddle

Breastfeeding Strap is used

Bra Strap is off

Head Supported

Bottom Elastic is Under Baby's Bottom

Unhook the clasp of the Bra Strap on nursing side and connect to bottom nursing support strap on the side. This will help support your baby while breastfeeding.

Slide your baby towards nursing side, keep the top of Cami behind your baby's head for support,. **Check to see that** bottom elastic is under baby's bottom.
