

Wearing The Second Skin Swaddle “patent pending”

Precious Image™
Creations

Is The Perfect Way to Welcome your Baby into the World *Consists of Two Sections*

The First Section Is Worn in Labor and Delivery

- *Provides coverage during labor and Delivery. After your baby is born he will be dried, diapered and placed on your chest. He will then be covered with the Swaddle Section to keep him warm and secure. The Womb like Enclosure will comfort him as he hears your heart beat and the sound of your voice.*

Labor Delivery

First hours after Birth

C-Section after Birth

Breastfeeding Postpartum

The Second Skin Swaddle for Labor and Delivery

- Remove clothing and put on one section of **Swaddle**. Adjusting so the long section is in the center front. Extend the Swaddle to cover your Torso.
- When desired or when birth is eminent, the Swaddle can be pulled up like a tube top.
- After your baby is born and thoroughly dried, your diaper clad baby will be placed skin-to-skin on your abdomen/chest
- The nurse will assist you to pull the Swaddle over your baby. The Arc Design and flexible fabric allow your baby to easily move to the breast in what we call the Breast Crawl and be secure and warm in the Womb like enclosure.
- Your baby will feel secure and comforted as your baby hears your voice and feels your heartbeat as in the womb.
